BHAGYASHREE ACHARYA

QA Tester | ISTQB Certified

8208925071 | bhag195naid@gmail.com | Pune | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

ISTQB Foundation Certified QA Tester with hands-on experience in manual testing, automation using Selenium (Java), API testing, performance testing, and database validation. Experienced across SDLC, STLC, Agile practices, and defect lifecycle management with strong analytical skills and attention to detail. Focused on structured test design, framework implementation, and delivering high-quality web applications.

TECHNICAL SKILLS

Programming & Scripting : Java | SQL (MySQL) | JavaScript (basic)
Automation & Frameworks : Selenium WebDriver | TestNG | Page Object Model (POM) | Data-Driven Testing | Maven
API & Performance : Postman (REST) | ReqRes API | Apache JMeter (basic)
Database Testing : MySQL | SQL Server | CRUD | Joins | Data Validation
Manual Testing : Test Case Design & Execution |Test Data Preparation | Defect Lifecycle | Defect Reporting / Bug Tracking | RTM Preparation
Testing Concepts : SDLC | STLC | Test Levels | Test Types | Regression Testing | Smoke Testing | Sanity Testing | Risk-Based Testing | Functional Testing | Non-Functional Testing
Tools : Git | GitHub | JIRA | Excel | IntelliJ IDEA | Visual Studio
Methodology : Agile / Scrum

PROFESSIONAL EXPERIENCE

Amazon Development Centre (India)

SPS Associate | May 2021 – Aug 2023

- Investigated and resolved complex seller platform issues, identifying root causes and ensuring SLA compliance.
- Managed Seller Central operations and escalated recurring system defects to internal teams.
- Resolved 50+ seller issues per week while maintaining SLA compliance

Wipro Ltd

Associate – Openreach Project | Nov 2019 – Apr 2020

- Supported network engineers in troubleshooting Openreach network-related issues, ensuring accurate incident documentation and timely resolution.
- Tracked incidents and collaborated with technical teams for defect resolution.

Savitribai Phule Pune University

Research Associate | Aug 2017 – Mar 2019

- Conducted structured data collection and validation for government-funded tribal research project.
- Ensured data accuracy, documentation integrity, and compliance with research protocols.

Projects

1. AJIO Web Ecommerce Purchase Flow

Manual Testing | Test Case Design | RTM | Defect Tracking (JIRA)

• Designed and executed end-to-end test scenarios covering Registration, Login, Search, Filter, Cart, Checkout, Coupons, Payment (Success/Failure).
• Created Requirement Traceability Matrix (RTM) ensuring full functional coverage.
• Applied boundary value analysis and scenario-driven testing for validation cases.
GitHub: [link]

2. SauceDemo Automation

Selenium | TestNG | Maven | POM

• Automated login, cart and checkout workflows.
• Implemented data-driven testing scenarios.
GitHub: [link]

3. Fakestore Performance Testing

JMeter | Load & Stress Testing

• Designed performance test plans simulating concurrent users.
• Analyzed response time, throughput and error rates.
• Identified potential performance bottlenecks.
GitHub: [link]

4. SQL Database Testing

MySQL | SQL Server | CRUD | Joins

• Executed SQL queries to validate backend data integrity.
• Tested relational constraints and database consistency.
GitHub: [link]

5. ReqRes API Testing

Postman | REST API

• Created collections to validate GET, POST, PUT, DELETE endpoints.
• Verified status codes and response structure.
GitHub: [link]

EDUCATION

MCA, Manipal University Jaipur | 2021–2024
M.Sc. Anthropology, University of Pune | 2014–2016
B.Sc. Chemistry, Bhimthadi Shikshan Sanstha Science College | 2011–2014

CERTIFICATION

ISTQB Certified Tester – Foundation Level
